

All Ages/Grade Levels

Virtual Tour/Resource	Description
Africam	Wild life exposure to support learning at home. Watch wild animals in the beautiful African bush live and unscripted. Elephants, lions, leopards, and many more make appearances every day in the remotest of Africa's locations.
Aquarium of the Pacific Online Academy	On-demand videos and activities for all ages and a schedule of interactive live programs with aquarium educators, from virtual classroom sessions to Pacific Pals puppets.
British Museum - Museum of the World	Travel through time via your mouse or arrow keys via an interactive game brought to you by the British Museum. You can also explore the museum's exhibits at britishmuseum.org
California Science Center	With "Stuck at Home Science", explore, investigate and have fun learning together without leaving home. All activities use easy to find household supplies, and are appropriate for a variety of ages.
Camp KiwiCo	Four one-week online "camps" designed for age groups as young as pre-k, designed to explore science, art, robotics, and more, through DIY activities, videos, printables, and other content.
Cincinnati Zoo	Online safaris.
Code.org	Take a Code Break! Your weekly dose of inspiration, community, and computer science, every Wednesday at 10am PST. Plus other home learning resources.
Colonial Williamsburg	Discover the 18th-century with a virtual visit to Colonial Williamsburg. Follow a virtual tour, do at-home activities, explore collections, and read about influential people from the time period.
Comic-Con Museum@Home	Exclusive videos, including past events, and new video content created exclusively for the Museum@Home program. Plus an exclusive "Fun Book" series, a regularly scheduled downloadable PDF featuring activity and coloring sheets created by the Comic-Con Museum for various age groups. Celebrate Sherlock Holmes Day by learning how to dust for fingerprints or make your own invisible ink!
Discovery Education	Offers free virtual field trips complete with companion guides and hands-on learning activities.
Exploratorium	Explore, Play, Discover: Browse an online collection of exhibits, experience at-home activities via "Science Snacks" and "Tinkering at Home", and explore a variety of other online resources for learning at home.
Explore	Multiple live cams of nature plus education lessons to support student learning.
Franklin Institute	Your brain is always changing. Find out how and why through interactive activities from the award-winning exhibit "Your Brain". Whether you're connecting brain cells or playing with faces, what you learn will literally change your mind!

All Ages/Grade Levels

Virtual Tour/Resource	Description
Georgia Aquarium	Daily and weekly live streaming events, exhibit live cams, Deep Sea Learning videos with study guides, and much more!
Girls Who Code	Activities released weekly on Mondays — some online, some offline, of varying levels of difficulty. Each activity features a woman in tech who pioneered innovative technology. Typically intended for grades 3 through 12.
Golden Gate National Parks Conservancy	Tour park trails and roads and see the views from them using Street View by Google Maps.
Google Arts and Culture	Explore artwork collections, museums, and locations around the world; learn about art history and influential historical figures; discover art and culture activities to do at home.
Kennedy Space Center	A variety of videos about space, spacecraft, how they're made, and activities you can do at home to learn more about space travel.
London Zoo	Explore the London Zoo through a virtual tour, as well as "Zoo School" resources for home learning for students ages 3-16.
Maritime Aquarium	Aquarium streams some of the most popular educational programs each week. All programs require advance reservations, and are free but offer an option to donate to support the program.
Mars	An interactive 360 degree view of the surface of Mars as recorded by NASA's Curiosity rover.
Metropolitan Museum of Art	Stroll virtually around the Metropolitan Museum of Art in New York and click on each exhibit to find out more about them. Visit metmuseum.org for even more online content including virtual events and DIY art projects.
Metropolitan Opera	A virtual, global opera summer camp! Watch a free opera stream and participate in activities from home.
Monterey Bay Aquarium	Guided science activities for students in PK-12th grades to support learning at home.
Musée d'Orsay	See works from Van Gogh, Monet, and Cezanne, as you take a look around this railway station turned museum.
NASA Space Place	Explore Earth and space through activities, crafts, games, videos, and other interactive content.
NASA STEM Engagement	At-home activities designed for all grades K through 12, including the Lunar Loo Challenge! Can you design a better space toilet? NASA is accepting submissions from all ages, with Junior category winners receiving swag and adult winners receiving a cash prize!
NatGeo at Home	Quizzes, videos, activities, science experiments, and at-home classroom resources.
National Marine Sanctuaries Virtual Dives	Highlights the amazing habitats, animals, and cultural resources you can find in each national marine sanctuary.

All Ages/Grade Levels

Virtual Tour/Resource	Description
National Museum of African American History	Explore, learn and engage with the National Museum of African American History and Culture through our numerous digital resources.
National Naval Aviation Museum	An immersive look at the aircraft and exhibits displayed in honor of the achievements and sacrifices made over a century of Naval Aviation.
National Parks	Guided tours through Kenai Fjords, Hawai'i Volcanoes, Carlsbad Caverns, Bryce Canyon, and Dry Tortugas National Parks.
National Women's History Museum	Online resources where you can view and learn about different women in history and what they achieved
New York City	Experience New York City in Virtual Reality.
Orlando Virtual Tours	Multiple guided activities for students in PK-12th grades to support learning at home.
Rijksmuseum	This famous museum in Amsterdam houses legendary works by Rembrandt, Van Gogh, and other Dutch masters.
Ripley's Aquariums	Live events with Aquarium staff educators, who will be your guide to live feedings, educational encounters, story time, and much more! Discover downloadable animal activities and crafts, or visit live cams from Ripley's different aquariums.
Safari at Home	Join us on a virtual safari and explore Asilia's camps and lodges across Kenya and Tanzania — from the Masai Mara to the Serengeti.
San Diego Zoo	Site includes virtual tours as well as live cams. The website also includes activities and games.
Scratch	Program your own interactive stories, games, and animations — and share your creations with others in the online community. Scratch is designed for ages 8 to 16; for younger students, visit Scratch Jr.
Scratch Jr.	With ScratchJr, young children (ages 5-7) can program their own interactive stories and games. In the process, they learn to solve problems, design projects, and express themselves creatively on the computer.
Smithsonian National Air and Space Museum	Bring the wonder of Air and Space to life through videos, hands on activities, games, and more.
Smithsonian Natural History Museum	Online resources to guide through entire museum.
Smithsonian Natural History Museum Learning Lab	Resources, training, and support to assist caregivers, teachers, and students.

All Ages/Grade Levels

Virtual Tour/Resource	Description
